ROUND 2, LLC, CMW HOLDINGS, LTD TO ENTER INTO LICENSING AGREEMENT

FOR IMMEDIATE RELEASE:

SOUTH BEND, Indiana – 05/04/2017 – Round 2, LLC, is pleased to announce Round2 Corporation will produce and market CMW Holdings, Ltd.’s category leading line of vehicle models and accessories aimed at the model railroad hobby under the Classic Metal Works and Mini Metals brands.

Round 2 announced the licensing agreement April 17. With the agreement, Round 2 now adds the model railroading category to their wide range of hobby products.

Thomas Lowe, President and CEO of Round 2 states, “The addition of the Classic Metal Works line of model railroad inspired HO & N scale vehicle models and accessories was a natural for Round 2, the top producer of model kits, die-cast, and slot-cars. The model railroad category is new for Round 2. But the synergies of CMW and Round 2 were undeniable. The Classic Metal Works brands have been a mainstay in the hobby business for 20 years. We see many profitable opportunities for our dealers and distributors, as well as innovative product experiences for railroaders and other hobbyists. And now Round 2’s combined product catalog is now the most diverse in the industry, we fill virtually every type of model kit genre imaginable, die-cast models, slot-cars and now model railroading!

Lowe continues, “We are truly excited about entering the model railroading marketplace. With our diverse product development, marketing and manufacturing resources we plan to be a strong competitor under the 20 year strength of the Classic Metal Works brand.
