

SPACE: 1999

THANK YOU and CONGRATULATIONS for your purchase of this SPACE:1999 Eagle Transporter display model. It is always our intent to offer affordable authentic replicas that any discriminating SPACE:1999 fan would love to display. This model was mastered from measurements taken directly from the filming miniature used during the production of the television program. This edition features specific details featured in the Eagle 2 miniature that was filmed for the show. We hope that you enjoy displaying this iconic ship in your memorabilia collection!

Use cyanoacrylate ("super glue") to permanently hold parts in place if desired.

Locate the **TEETH** inside top of nose cone to the holes in the top of the rear wall. Tilt nose cone down and allow the lower **TEETH** to click into the holes in the bottom. Gently squeeze the nose cone at the sides if necessary.

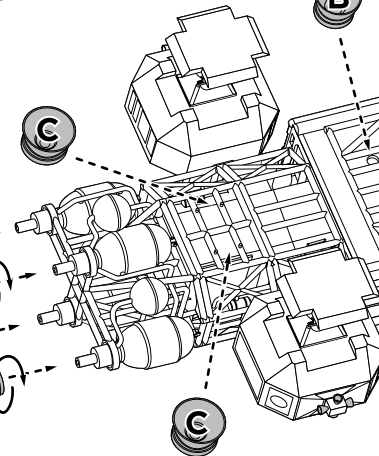

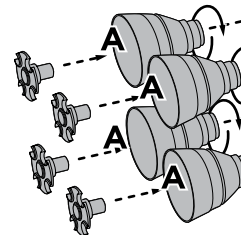

Use a twisting motion to locate the large engine bells. Handle carefully to prevent breaking tubing assemblies.
